

Major

Filling out the Prospect Application

1. **Signatures:** When signature is added first before adding the signer's name, the system won't allow the signer to add their full name (only a few characters are allowed and it is difficult to type in the name textbox).

The screenshot shows a web browser window with the URL `test-crm.charng.com/enhanced-pdf-wizard/1?preview=true&templateId=1`. The page displays a 'Bank Disclosure' form titled 'Esquire Bank Disclosure (Version 1.0)'. The form content includes a paragraph about the Merchant Terms & Conditions Agreement, a URL `http://www.paymentsworld.com/pdf/TermsConditionsPW0420-E.pdf`, and a bolded statement: 'NO ALTERATIONS OR STRIKE-OUTS TO THE MERCHANT TERMS & CONDITIONS AGREEMENT WILL BE ACCEPTED AND, IF MADE, ANY SUCH ALTERATIONS OR STRIKE-OUTS SHALL NOT APPLY.' Below the text is a 'Reading progress' bar at 100%. A green box indicates 'Disclosure Acknowledged & Signed' with 'Signed by: ss' and 'Date signed: 1/22/2026, 6:48:55 PM'. A red arrow points to the 'Signed by' field. The left sidebar contains navigation links: 'Needs attention', 'Bank Disclosure' (1 field), 'Transaction Information' (31 fields), 'Site Inspection' (Needs attention), 'Credit / Debit Authorization' (3 fields), 'Trade Reference' (4 fields), and 'Equipment' (5 fields). At the bottom are 'Previous' and 'Next' buttons.

2. Signature request email did not retrieve the ownership correctly.

The screenshot shows a Gmail inbox with the email 'Signature Required: Signature Request Merchant Application' from `paymentnotify@charng.com`. The email body features a blue header 'Digital Signature Required' and a message to 'Hello Monica Geller,' stating she is listed as a business owner with 'N/A% ownership'. A box titled 'What You Need to Do:' lists three steps: 1. Click the secure signature link below, 2. Review the complete application details, and 3. Provide your digital signature to authorize the application. A green button at the bottom says 'Click Signature Link'. The email is shown in a standard Gmail interface with a left sidebar and top navigation bar.

3. Application is submitted successfully even when some of the required fields are not yet populated/completed – example: signatures.

The screenshot shows a web browser at the URL `test-crm.charrg.com/application-status/ceb87f4b-df6c-4653-8216-7f7aee14781`. The page is titled "Application Status" with the subtitle "Track your merchant application progress". It displays details for an application submitted by Alex Felipe (Application ID: 1). The "Application Timeline" shows the application was created, validated, started, and last updated on January 23, 2026. The "Contact Information" lists Alex Felipe's name and email. The "Next Steps" section states the application has been submitted for review. A "Document Management" section allows for uploading supporting documents. A success message on the right states: "Application Submitted Successfully! Your merchant processing application has been submitted for review. You will receive an email confirmation shortly."

4. On page refresh – the Bank Disclosure is marked completed even when I have not signed it yet on previous form visit

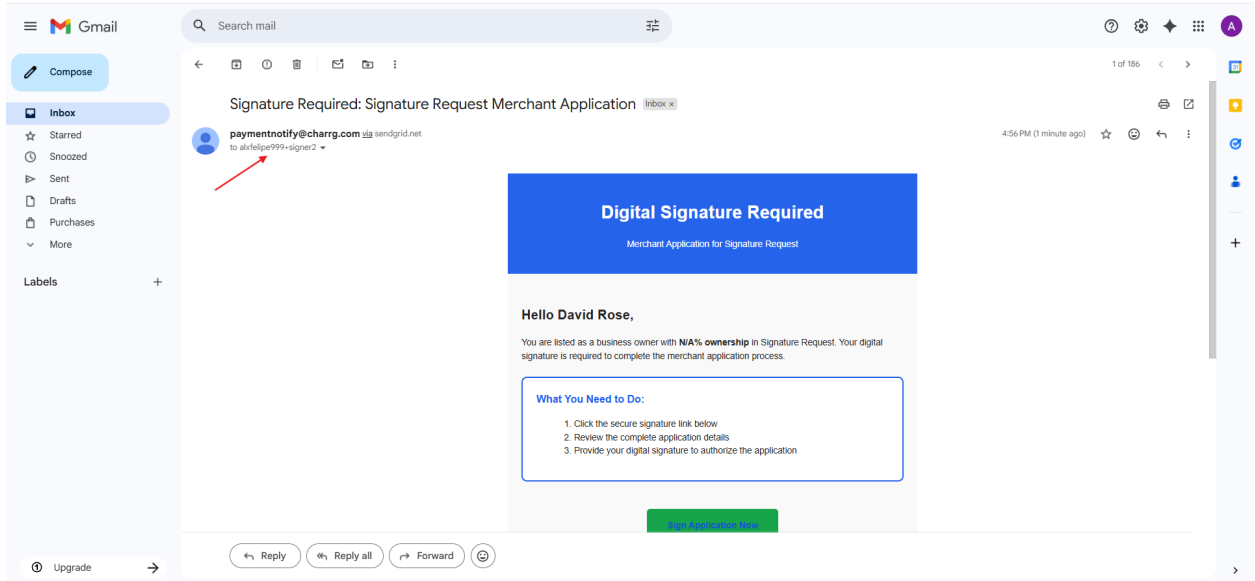

The screenshot shows a web browser at the URL `test-crm.charrg.com/enhanced-pdf-wizard/1?token=084422d7-6c82-46f0-9e43-2b7c7637d049`. The page is titled "Merchant Processing Application" with a progress bar at 49%. It shows a list of application sections on the left, including Merchant Information, Bank Disclosure (marked with a green checkmark), Transaction Information, Site Inspection, Credit / Debit Authorization, Trade Reference, and Equipment. The main content area displays the "Bank Disclosure" section, which includes the "Esquire Bank Disclosure" (Version 1.0) and a "Read - Sign Below" button. The disclosure text states that the merchant agrees to communicate with PaymentWorld via email, sms, text or facsimile. The "Member Bank Information" section lists Esquire Bank NA. The "Full Legal Name" and "Email Address" fields are present, along with a "Signature" field that has a "Draw" button and a "Type" button. The "Reading progress" bar is at 100%.

5. Ownership Information: After signing and clicking *save signature*, notification that *signature is saved* popped out but signature does not display. After refresh – signature is not saved. User needs to click Save signature twice to really save the signature.

The screenshot shows a web browser window with the URL `test-crm.charrg.com/enhanced-pdf-wizard/1?token=084422d7-6c82-46f0-9e43-2b7c7637d049`. The form is titled "Ownership Information" and includes fields for "Ownership Percentage" (25%), "Date of Birth" (02/03/1990), "SSN" (***-**-6799), "Email" (alfelipe999+merchant2@gmail.com), and "Phone" ((333) 333-3333). Below these fields is a "Residential Address" section with "Street Address" and "Apt/Suite (Optional)" fields. A checkbox for "Control Person" is present. The "Signature Required" section shows a signature for "Alexis Flowers" with a "Pending" status. A red arrow points to the "Save Signature" button. Another red arrow points to a notification box on the right that says "Signature saved. Your signature has been captured successfully."

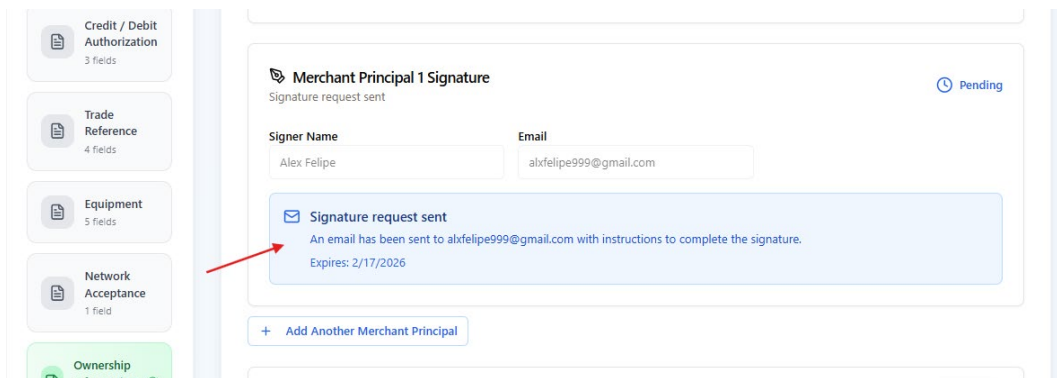

6. Ownership > Send for signature – after clicking *send for signature*, a notification that *signature request has been sent* popped up but Ownership page does not show that signature has already been requested. Signature request was sent via email.

The screenshot shows the same web browser window as the previous one. The "Signature Required" section now shows a signature for "David Rose" with a "Pending" status. A red arrow points to the "Send for Signature" button. Another red arrow points to a notification box on the right that says "Request sent. Signature request sent to alfelipe999+signer2@gmail.com". Below the signature section, there is a red error message: "Please correct the following issues: 1 beneficial owner(s) require signature, David Rose signature, Alex II Felipe: Street address is required, Alex II Felipe: City is required, Alex II Felipe: State is required, Alex II Felipe: Valid ZIP code is required".

When tab is refreshed, the display still doesn't show that the signature request was already sent and this might cause double email request.

Below is the display that should show when signature request has been sent.

7. Accessing signature request email (from item #6): information is not loaded/displayed correctly aside from name of owner

test-crm.charrg.com/signature-request?token=6bf8606b1a62d97b6d05b527118dc610e643c0ca09537031d07f3301e5790172

An email has been sent to alxfelipe999+guarantor@gmail.com with instructions to complete the signature.
Expires: 2/17/2026

The Guarantor is directed to correct signing page with correct prospect information and disclosure displayed.

12. ISO signer received the email signature request for business owner

13. ISO signature request was directed to signature page with no disclosure attached and prospect information not correctly displayed

The image shows two screenshots of a web application interface. The top screenshot is titled "Merchant Application Signature Request" and displays application details for a user named Deborah Morgan. It shows the company as "Merchant Application", the applicant as "Applicant", and the application ID as "N/A". A message states: "Hello Deborah Morgan, Your signature is required to complete the merchant processing application for Merchant Application. Your signature is legally required to proceed with the application." Below this, it lists the assigned agent as "Agent" and provides a link to contact the agent. The bottom screenshot is titled "Digital Signature Required" and prompts the user to provide a digital signature. It offers two options: "Draw Signature" and "Type Signature". A large box labeled "Draw Your Signature" is provided for drawing the signature. Below the box are "Clear" and "Save Signature" buttons. At the bottom of the page is a "Submit Signature" button. A disclaimer at the very bottom states: "By providing your digital signature, you acknowledge and agree to the terms of the merchant processing application. This signature is legally binding and equivalent to a handwritten signature."

14. After completing the signatures and refreshing the application – there is no signature reflected on the application.

15. Signature request links on emails are still accessible even after signing completion, and signers can sign again even after already signing.

16. Single signature pages do not have an option for send signature request.

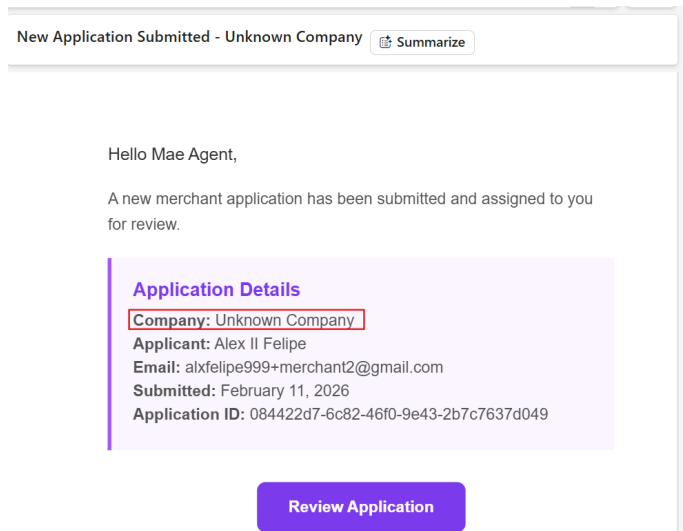

This affects the following disclosures:

- a. Bank Disclosure
- b. Site Inspection
- c. Certification of Beneficial Owners

Next Steps

Your application has been submitted for review. We'll notify you of the decision.

Document Management
Upload supporting documents or access your full prospect portal

 **Upload Supporting Documents**

You can upload bank statements, business licenses, identification documents, and other supporting materials through your prospect portal.

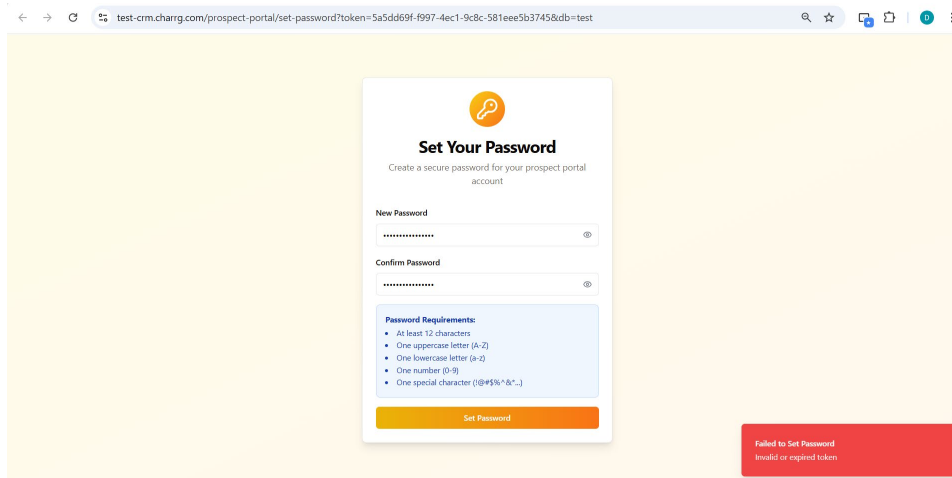

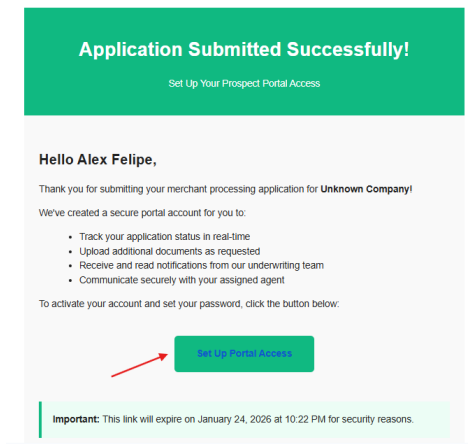

Go to Prospect Portal

Note: You'll need to log in with your email address to access the prospect portal. If you haven't set up your password yet, use the password reset option.

But clicking the *Go to Prospect Portal* – gets Authentication error:

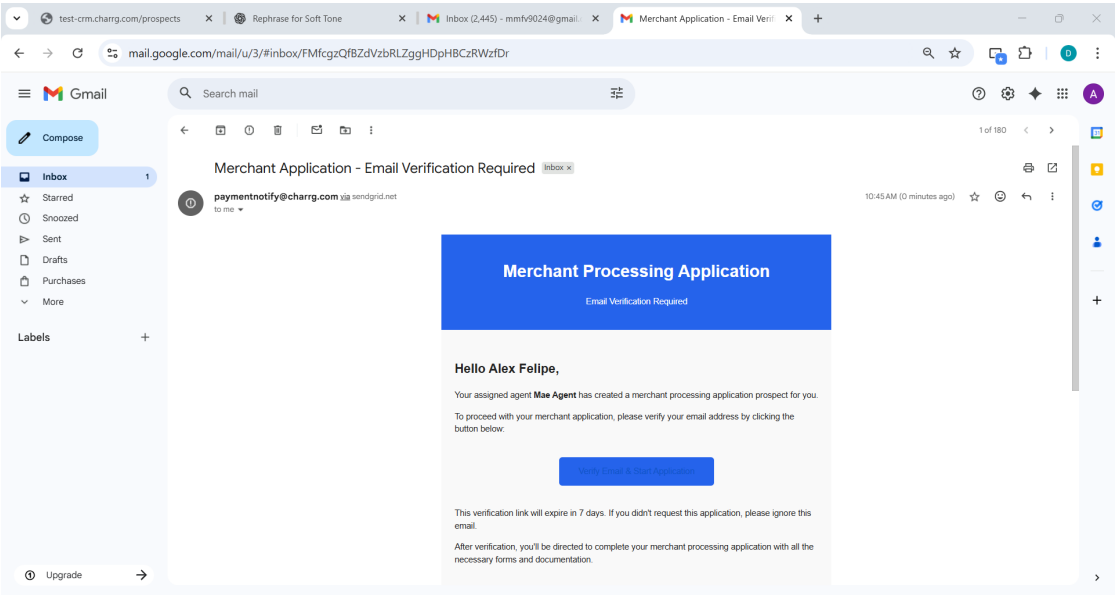

3. Clicking the **Set-Up Portal Access** button from 2nd email received by prospect (*Welcome to Your Merchant Portal*) - Cannot setup portal

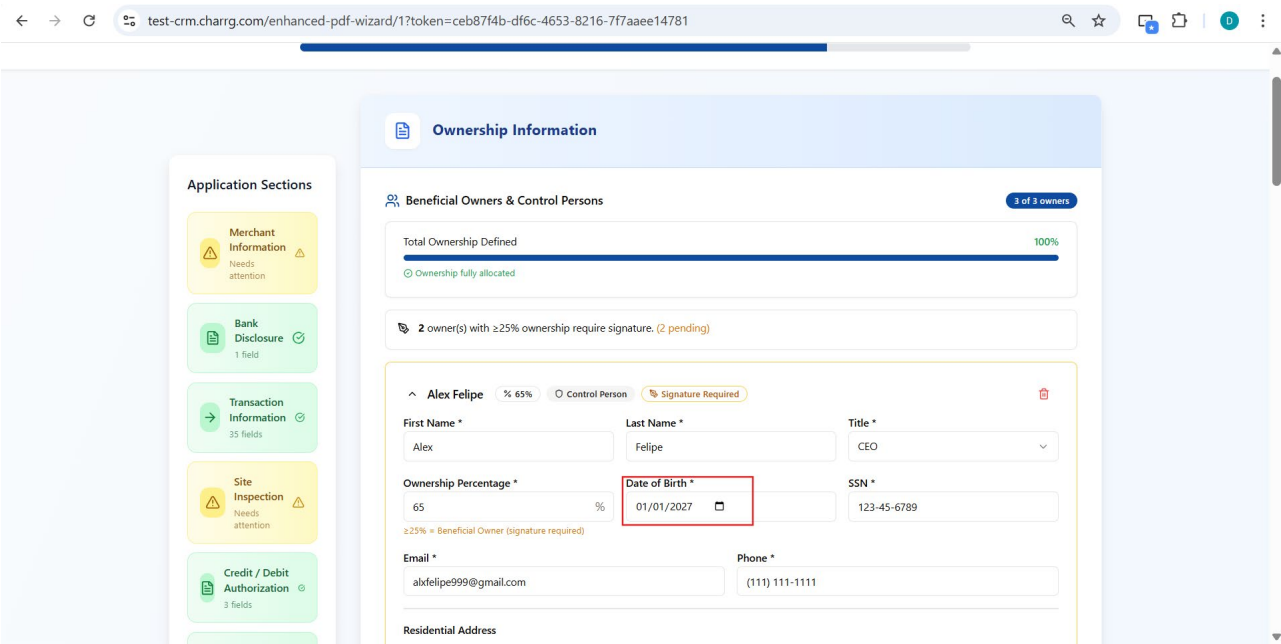

Minor

Filling out the Prospect Application

- 1. Verify Email button is not clearly visible when viewed on Gmail.

- 2. **Ownership** section: *Date of Birth* field allows future date – this cannot be configured in the application templates page since this belongs to the **Owner** field type.

3. Ownership: Address field is not utilizing the Google Address auto complete validation

test-crm.charrg.com/enhanced-pdf-wizard/1?token=ceb87f4b-df6c-4653-8216-7f7aaee14781

Ownership fully allocated

2 owner(s) with ≥25% ownership require signature. (2 pending)

Control Person Individual with significant responsibility for managing the business (e.g., CEO, CFO, Managing Member)

4. When application page is refreshed, some sections display gray color even when they are already filled out. If there are missing fields, the color should be yellow for warning instead of gray. This is intermittent and changes which section to turn gray. On the other application I did, the Agreement Disclosure is the only one turning gray after refresh even when it has one signature saved.

5. Merchant Application > **State Filed** field does not use the state validation from Google Address validation.

The screenshot shows a web browser window with the URL `test-crm.charrg.com/enhanced-pdf-wizard/1?token=084422d7-6c82-46f0-9e43-2b7c7637d049`. The form is titled "CEO" and contains several fields: "Tax ID" (with a masked value), "Company Website Address", "Company E-Mail Address" (with the value `alxfelpe999+merchant2@gmail.com`), "Business Type" (with radio buttons for Partnership, Sole Proprietorship, Public Corporation, Private Corporation (selected), Tax Exempt, and Limited Liability Company), "State Filed" (with a dropdown menu showing "Texas"), "Business Start Date" (with a date picker), and several yes/no questions. A red arrow points to the "State Filed" dropdown menu.

6. Transaction Information > **percentages** that should not be > 100% in total should have validation. Not sure if these are validated during saving.

The screenshot shows a web browser window with the URL `test-crm.charrg.com/enhanced-pdf-wizard/1?preview=true&templateId=1`. The form is titled "Transaction Information" and contains several percentage fields: "What % of total sales represent B2B", "What % of total sales represent B2C", "What % of Credit/Debit sales represent B2B", "What % of Credit/Debit Sale represent B2C", "% of transactions that are delivered Zero To Seven Days", "% of transactions that are delivered Eight To Fourteen Days", "% of transactions that are delivered Fifteen To Thirty Days", and "% of transactions that are delivered Over Thirty Days". Each field has a text input and a percentage symbol. A red box highlights the first four percentage fields.

7. **Transaction Information > Merchant Type** should either have validation to match the **Merchant Information > Merchant Sells MCC** or this could be auto populated with the Merchant Type that matches the MCC?
